# Managed Print Services

Managed Print Solutions (MPS) are comprehensive services designed to streamline and optimise an organisation's print environment.

Here's a structured overview that outlines the benefits, pain points addressed, and the solutions offered, specifically in the context of Pinnacle's Managed Print Services:

## Managed Print Solutions Overview

Pinnacle's MPS integrates award-winning Xerox Multifunction Devices for printing, copying, and scanning. It focuses on making the workforce more efficient and secure while maintaining the print fleet.

## Key features

**Built- in security with Xerox ConnecKey**

**Automated workflows for enhanced productivity**

**Flexibility in operations and constant optimisation**

**Scalable and advanced cloud solutions**

# Pain Points Addressed

### 1. Inefficient Resource Management:
Traditional print environments often drain IT resources leading to inefficiencies.

### 2. Security Risks:
With the increasing digital footprint, data and document security is a significant concern for business.

### 3. Workflow Disruptions:
Manual processes and disjointed scanning workflows hamper productivity.

### 4. Environmental Impact
Excessive energy consumption and paper waste harm sustainability goals.

### 5. Cost Management:
Unchecked print environments can spiral costs and inefficiencies.

# Solutions Offered

### Print Control:
Enhances productivity, controls waste, ensures compliance, and offers transparent cost management.

### Scan Workflows:
Automates processes, integrates with third-party applications and utilises Optical Character Reading (OCR) for efficiency.

### Productivity Enhancement:
Digital transformation strategies and new technologies to streamline workflow processes.

### Fleet Management & Security:
Proactively managing device status, supply management, and integrated security services.

### Optimised Operations:
Data-driven optimisation of print devices, mobile printing, and flexible deployment options.

### Advanced Analytics:
Provides insights into fleet health, compliance, and usage trends to drive productivity and cost reduction.

### Sustainability Focus:
Energy-efficient printers, reduced paper use, and recycling programs to minimise environmental impact.

### Employee Engagement & Digital Transformation:
Utilises Xerox ConnectKey® Technology and various apps to adapt to evolving business needs.

### Workflow Automation:
Overcomes document conversion challenges and offers a variety of automated workflows.

### Business Process Insights:
Detailed analysis and mapping tools for identifying process improvement opportunities.
