

Managed Print & Document Services

Managed Print & Document Services

Managed Print Solutions (MPS) are comprehensive services designed to streamline and optimise an organisation's print environment.

Here's a structured overview that outlines the benefits, pain points addressed, and the solutions offered, specifically in the context of Pinnacles Managed Print Services:

Managed Print Solutions Overview

Pinnacles MPS integrates award-winning Multifunction Devices for printing, copying, and scanning. It focuses on making the workforce more efficient and secure while maintaining the print fleet.

Pain Points Addressed

1. Inefficient Resource Management:

Traditional print environments often need more IT resources, leading to inefficiencies.

2. Security Risks:

Data and document security is a significant business concern with the increasing digital footprint.

3. Workflow Disruption:

Manual processes and disjointed scanning workflows hamper productivity.

4. Environmental Impact:

Excessive energy consumption and paper waste can harm sustainability goals.

5. Cost Management:

Unchecked print environments can spiral costs and inefficiencies.

How we can help

Print Control:

Enhances productivity, controls waste, ensures compliance, and offers transparent cost management.

Scan Workflows:

Automates processes integrate with third-party applications and utilises Optical Character Reading (OCR) for efficiency.

Productivity Enhancement:

Digital transformation strategies and new technologies streamline workflow processes.

Fleet Management & Security:

Proactive management of device status, supply management and integrated security services.

Optimised Operations:

Data-driven optimisation of print devices, mobile printing, and flexible deployment options.

Advanced Analytics:

Provides insights into fleet health, compliance, and usage trends to drive productivity and cost reduction.

Sustainability Focus:

Energy-efficient printers, reduced paper use and recycling programs can minimise environmental impact.

Employee Engagement & Digital Transformation:

Utilising award-winning technology and various apps which adapt to evolving business needs.

Workflow Automation:

Overcomes document conversion challenges and offers a variety of automated workflows.

Business Process Insights:

Detailed analysis and mapping tools that identify process improvement opportunities.

Built-in, award winning document security

Automated workflows for enhanced productivity

Flexibility in operations and constant optimisation

Scalable and advanced cloud solutions
