DO MORE WITH YOUR REDUNDANT IT DEVICES

Redundant IT assets are not worthless

Ensure you receive the best possible ROI on your hardware by leveraging Pinnacle's secure and sustainable IT asset lifecycle service.

Identify

True market value from the resale of IT assets

Evaluate and assess your redundant IT assets to determine their true market value for resale. Pinnacle, working with our partner Relltek's team of experienced industry professionals, will provide a comprehensive analysis, ensuring you receive fair market value for your assets, including associated costs for secure collection and data erasure.

Collect & Cleanse

Sensitive data in accordance with the highest industry standards

Pinnacle, with our partner Relltek, offers comprehensive IT Asset Disposition (ITAD) services globally. We manage the collection, packing, transport, data erasure, and asset auditing with security-cleared engineers. Services include certified data erasure which complies with the highest industry standards both in the UK and globally including WEEE Directive, HMG Infosec Standard 5 (Higher Standard), US DoD Standard 5220.22-M, AS/NZS 5377-2013, and NIST 800-88.

Reinvest

Your residual value through multi-layered solutions

Take an approach that fits your specific business requirements. We provide multiple options on how you can leverage your return, including:

- Hardware Procurement
- Document Management Contracts
- IT Managed Services
- Charity Donations
- Cashback
- Carbon Credits
- Digital & Cloud Transformation Budgets
