

AV/Audio Solutions

AV/Audio Solutions

Award-winning partners back us and offer a comprehensive suite of AV & Audio Solutions to enhance communication and collaboration across various industries.

These solutions cater to diverse workplace needs, from IP phones to video conferencing devices, headsets, webcams, and intelligent room devices.

Pain Points in High-Volume Printing

Unified Communications & Collaboration:

Empower your business with various Unified Communication & Collaboration (UC&C) devices that boost communication efficiency and productivity. These solutions facilitate seamless collaboration with IP phones, video conferencing tools, or intelligent room devices.

Microsoft & Zoom integration:

Integrate with leading platforms like Microsoft and Zoom using dedicated devices and solutions. Elevate your virtual meetings and conferences with certified Microsoft and Zoom-compatible devices.

Specialised Solutions:

Address specific industry needs with specialised solutions tailored for verticals such as healthcare and future workforce readiness. Optimise communication and collaboration within specific industry settings and tailored solutions while preparing your business for evolving work dynamics.

Certification Programs:

Enhance your team's AV & Audio Solutions expertise through specialised certification programs. These programs cover various aspects, including product knowledge, installation, and troubleshooting, ensuring your business can effectively leverage these solutions.

How Pinnacle can help

Huddle & Small Meeting Rooms:

55" Commercial 4K displays, integrated wireless conferencing systems, and BYOD connectivity for streamlined collaboration.

Medium Meeting Rooms:

Enhanced setups with dual 65" 4K displays, video bars, and centralized control systems for seamless communication.

Boardroom & Large Conference Spaces:

Fully equipped with multiple displays, PTZ cameras, and DSP systems for high-quality audio and video communication.

Event Production & Staging:

Complete AV setups for conferences, including live streaming and immersive event staging services.

Introducing Room in a Box

Room in a Box is a fully preconfigured AV solution for modern meeting and conference rooms. It offers seamless integration with video platforms like Teams, Zoom, Webex, and Google Meet and wireless content sharing.

Our packages are delivered, installed, and ready for immediate use. Flexible financing options, including leasing, are available.

This service eliminates the need for upfront capital investment and includes after-sales support. Solutions are tailored to your business needs, with same-day finance approval and various term lengths.

We offer 36, 48 and 60-month terms. Packages are charged monthly or quarterly, with tax relief available for Corporate Lease Hire.
