

AV Audio Solutions

Award-winning partners back us and offer a comprehensive suite of AV & Audio Solutions to enhance communication and collaboration across various industries.

Enhance Collaboration with Innovative AV Solutions

Empower your teams to communicate and collaborate with confidence through Pinnacle's Audio Visual (AV) Solutions. From Microsoft Teams Rooms and Zoom-enabled meeting spaces to fully integrated boardrooms and collaborative workspaces, we design, install and support intelligent AV environments that deliver exceptional meeting experiences wherever your people work.

Pain Points in High-Volume Printing

01.

Unified Communications & Collaboration:

Empower your business with various Unified Communication & Collaboration (UC&C) devices that boost communication efficiency and productivity. These solutions facilitate seamless collaboration with IP phones, video conferencing tools, or intelligent room devices.

02.

Microsoft & Zoom integration:

Integrate with leading platforms like Microsoft and Zoom using dedicated devices and solutions. Elevate your virtual meetings and conferences with certified Microsoft and Zoom-compatible devices.

03.

Specialised Solutions:

Address specific industry needs with specialised solutions tailored for verticals such as healthcare and future workforce readiness. Optimise communication and collaboration within specific industry settings and tailored solutions while preparing your business for evolving work dynamics.

04.

Certification Programs:

Enhance your team's AV & Audio Solutions expertise through specialised certification programs. These programs cover various aspects, including product knowledge, installation, and troubleshooting, ensuring your business can effectively leverage these solutions.

A Smarter Approach to Workplace Collaboration

Effective collaboration depends on technology that is simple to use, reliable and designed around the needs of modern organisations. Intelligent AV solutions eliminate technical barriers, improve communication and create consistent meeting experiences across every workspace.

Pinnacle delivers fully integrated Audio Visual solutions that combine industry-leading technology, expert design and proactive support to help organisations maximise collaboration and productivity.

Our approach focuses on

Pinnacle works closely with organisations to understand their workplace, collaboration requirements and long-term business goals. From consultancy and system design through to installation, user training and ongoing support, we deliver AV solutions that provide lasting value and exceptional user experiences.

Connect, Collaborate and Communicate Better

Modern organisations rely on seamless communication to support hybrid working, strengthen collaboration and deliver exceptional customer experiences. However, outdated meeting technology, inconsistent audio quality and complex room setups often lead to wasted time, poor engagement and frustrating meeting experiences.

Pinnacle's AV & Audio Solutions provide intelligent workplace technology designed around the way your teams work. From simple Room-in-a-Box packages for smaller meeting spaces to fully integrated boardrooms, training facilities and collaborative environments, we create AV solutions that enable effortless communication, improve productivity and support flexible working across your organisation.

FREQUENTLY ASKED QUESTIONS

What AV solutions does Pinnacle provide?

Pinnacle designs, installs and supports Audio Visual solutions including Microsoft Teams Rooms, Zoom Rooms, boardrooms, collaboration spaces, training rooms, digital displays and integrated workplace communication systems.

Are your AV solutions suitable for hybrid working?

Yes. Our solutions are specifically designed to support seamless collaboration between remote and office-based employees using leading video conferencing platforms.

Which collaboration platforms are supported?

Our AV systems integrate with Microsoft Teams, Zoom and other leading collaboration platforms, providing flexibility for organisations with mixed technology environments.

Can AV systems be customised?

Absolutely. Every solution is tailored to your meeting spaces, business objectives, user requirements and workplace environment to ensure the best possible experience.

Do you provide installation and ongoing support?

Yes. Pinnacle manages every stage of your project, including consultancy, design, installation, configuration, user training and ongoing maintenance.

Can AV technology integrate with existing systems?

Yes. We design solutions that integrate seamlessly with your existing collaboration platforms, workplace technology and IT infrastructure wherever possible.

What is a Room-in-a-Box solution?

Room-in-a-Box is a complete meeting room package that combines cameras, microphones, speakers and collaboration technology into an easy-to-deploy solution for hybrid meetings.
